

Custom Manufacturing Experts Since 1980

Marketing Tech is a team of responsive manufacturing specialists. For over 40 years, we have delivered custom metal, plastic, and electronic components for demanding products. Our mission is to connect you with U.S. manufacturers who set the standard for capabilities, problem-solving, and service.

METALS

A&B DIE CASTING – Low/Mid-Volume Aluminum & Zinc Die Casting

ISO 9001

With creative tooling methods and a full machine shop in house, A&B makes die casting economical at quantities that other foundries would not consider.

GENERAL FOUNDRY – Prototype & Bridge-to-Production Castings

ISO 9001 ITAR

With five complementary processes under one roof, General Foundry delivers fully finished Aluminum and Zinc castings from the size of a dime to over 500 pounds.

GORDON ALUMINUM – Turn-Key Aluminum Extrusions

ISO 9001

Gordon Aluminum specializes in precision extrusions with extensive fabrication requirements. Internal capabilities include 5-axis machining, bending, welding, and assembly.

HARVEY VOGEL – Sheet Metal Stamping & Fabrication

ISO 9001 AS9100 ITAR

From quick-turn prototyping to progressive die stamping, HV is a complete sheet metal manufacturer. Low-cost stage tooling drives down part prices, even at modest volumes.

LIQUIDMETAL TECHNOLOGIES – Amorphous Alloy Injection Molding

ISO 9001

Stronger than Steel, more elastic than Titanium, near-zero shrink rate. Liquidmetal molding creates small, complex metal parts with machining-level precision right out of the mold.

PROTOTEK – Quick-turn Machining and Fabrication

ISO 9001 ISO 13485 AS9100 ITAR

Prototek delivers fully finished metal parts in days, from a variety of materials. Precision manufacturing using CNC machining, laser cutting, bending, punching, and welding.

XJET – Stainless Steel & Ceramic Nanoprinters

Groundbreaking powderless 3D nanoprinting systems for precise, fully finished stainless steel and ceramic parts with no post-processing

Utah Office: Utah, Nevada, Idaho,
& Montana

Why Marketing Tech? Because You Know Your Product — We Know Manufacturing

Bringing an original product to market is a huge undertaking. Our manufacturing specialists will help you specify the right processes, materials, and partners for the job. We strive to support our customers through their entire development journey, from concept to production.

PLASTICS

DESIGN OCTAVES – Reaction Injection Molding (RIM) ISO 9001
Specializing in highly cosmetic enclosures, Design Octaves handles every detail of the RIM process. In-house execution of tooling, molding, painting, shielding, and assembly.

FM CORPORATION – Structural Foam & Gas Assist Molding ISO 9001
FM is the industry leader in low-pressure structural foam molding. Strong, resilient plastic parts up to 75 pounds and 10 feet long, with in-house finishing and decoration.

PROTOTEK – Additive Mfg, Silicone/Urethane Casting ISO 9001 ISO 13485 AS9100
Prototek delivers fully finished plastic parts in days, from a variety of processes and materials. Precision manufacturing using 7 additive platforms, silicone/urethane casting, and machining.

SEAWAY PLASTICS – Low-Volume Plastic & Silicone Molding ISO 9001 ISO 13485 ITAR
Seaway offers complete low-volume molding and finishing of thermoplastics and LSRs. Four U.S. facilities comprise tool shops, cleanrooms, overmolding/two-shot, and paint services.

VANGUARD PRODUCTS – EMI/RFI Shielding & Conductive Gaskets ISO 9001 ITAR
Vanguard’s dual elastomer gaskets and seals provide inherent shielding and conductivity. Custom extrusion, molding, and fabrication complement Vanguard’s standard products.

WP MFG – Volume Injection Molding & Assembly ISO 9001 ISO 13485 ITAR
WP is a full-service plastic injection molder offering in-house and transfer tooling, reliable production, finishing, assembly, and final packaging.

ELECTRONICS

VALMARK INTERFACE SOLUTIONS – User Interface Controls ISO 13485
Valmark assembles and integrates custom interface hardware. Technologies include touchscreens, membrane switches, graphic overlays, and plug-and-play control panels.
